5. (Amended) The method of claim 1, wherein said step of generating a customized document includes the further steps of:

extracting a selected portion of the SOR database from the SOR database and storing the extracted portion in a computer memory workspace;

visualizing the extracted portion residing in the workspace on a computer display; and

customizing an order of presentation and an output format of the visualized, extracted portion residing in the workspace.

- 15. (Amended) The method of claim 1, wherein the SOR database includes an SOR document that defines the starting system parameters of the data warehouse.
- 17. (Amended) The method of claim 1, further comprising updating the SOR database including modifications to the data warehouse.
- 18. (Amended) The method of claim 1, further comprising synchronizing the SOR document with a centralized SOR database.
- 19. (Amended) The method of claim 1, further comprising inputting data discovery information either manually or automatically.
